TOWN WARRANT.

THE STATE OF NEW HAMPSHIRE.

[L. S.]

To the Inhabitants of the Town of Bow in the County of Merrimack in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at the Town House in said Bow on Tuesday, the eighth day of March next, at nine of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary town officers for the year ensuing.

2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriation of the same.

3. To see what sums of money the town will raise and appropriate for highways and bridges in addition to amount required by law.

4. To see if the town will vote to accept State Aid and raise such amounts as recommended by State Highway Department for State Aid Maintenance.

5. See if the town will raise for State Aid construction the sum of \$2,232.

6. To see how much money the town will vote to raise and appropriate for electric street lights.

7. To see what sum of money the town will raise and appropriate for white pine blister rust control.

8. To see what sum of money the town will raise and appropriate for repairing and reconditioning the roof of the Baker Free Library and topping out the chimneys. (By petition.)

9. To transact any other business that may legally come before said meeting.

Given under our hands and seal, this seventeenth day of February, in the year of our Lord nineteen hundred and thirty-two.

REPORT OF SUPERINTENDENT OF SCHOOLS.

To the School Board and Citizens:

I herewith submit my twelfth annual report of the schools of Bow, for the year ending June 30, 1931.

There were maintained during the year, seven schools, for a school-year of 37 weeks, with no change in the teaching force.

The total school enrollment was 147, with a daily average attendance of 95.90 per cent.

The schools were in session on an average of 359.71 half-days.

Of the teachers employed all have state certificates, five are graduates of normal school, one has attended summer institutes for teachers, one has taken a correspondence course for teachers.

HEALTH.

Hygiene, sanitation and physiology are taught in all our schools with emphasis placed upon pure foods, pure water, need of ventilation, and the evil effects of alcohol, nicotine and narcotics.

Health inspection of the school children by our school nurse covers all contagious and infectious diseases and most of the bodily defects, seeking to equip our pupils with good physical development and vigorous health. The school nurse, Miss Douillette, by her fidelity and industry, has succeeded in having many defects remedied and has had the hearty coöperation of parents, physicians and surgeons.

CHILD TRAINING.

The principal training-ground for the child's mind is the home and the school. History, pointing out that our present civilization has developed as a result of conflict and strife, shows that the problems and difficulties overcome by the child at home and at school, determine his behaviour, ambitions, and in fact the whole course of his existence.

As in childhood the teeth and gums need hard food to chew and the muscles need resistance to work against, so the

child's mind needs worthy problems and difficulties to contend with and conquer, both for his present happiness and future welfare.

Parent and teacher should realize that it is the duty of the child to do the work, and their duty to direct how the work is to be done without waste of time and energy. The early New England home in which each member of the family had its daily tasks to perform, is a valuable lesson for modern parents to learn and to heed.

The advice of a few educators (only a few), to assign only agreeable work to the child, is unwise and fallacious. The greatest happiness and success in life comes from the accomplishment of worthy deeds; as one noted educator said—"in getting the thing done." Unless the individual, through his own thought-process gains knowledge, can he hope that this knowledge will serve him in his time of need.

SCHOOL CONDITIONS.

The work in our schools is being well done. The teachers are industrious and are carrying out the state program of study with a well planned daily time-table and are supervising the conduct of the pupils on the play-grounds.

The few disciplinary troubles, chiefly caused by the lack of home training and parental government, make the duty of the teacher more difficult, the school life of the pupil less pleasant and his work less efficient.

The school board is deeply interested in the welfare of the pupils and is furnishing every means in its power for good schools. It is actively coöperating with the teachers and superintendent that the pupil may have such an education as will prepare him for complete living.

Parents and citizens are invited to visit the schools frequently and parents are asked to examine carefully the report-cards sent to them for their signatures. These cards are to inform the parent of the work done by the pupil, and of his conduct; teachers will gladly explain any report not understood.

In conclusion I express my appreciation for the coöpera-

tion and assistance given to me by the teachers, the school board and the citizens.

Respectfully submitted,

HENRY S. ROBERTS,

Superintendent of Schools.
